## **izzy+ among 10 businesses recognized by EDC**

**Monday August 16, 2010**

izzy+ was among 10 businesses recognized with the Commitment to Economic Growth & Prosperity Award at the annual investors meeting hosted August 10 by the Economic Development Corporation (EDC) of Elkhart County, Indiana. Mitch Roob, Secretary of Commerce for the state of Indiana, and EDC Board Chair Jim Hiatt, applauded the 2009 efforts of these companies in Elkhart County to invest in jobs and future expansion that support long-term regional growth.

Last year, izzy+ began a three-year expansion plan at its operations in Middlebury, Indiana, creating more than 115 jobs and investing significantly in equipment and building improvements.

Accepting the award on behalf of izzy+ were Rick Glasser, vice president, marketing and product management, and Les Stoller, plant manager.

"We are proud to accept this award on behalf of our entire workforce," says Chuck Saylor, CEO and chairman of izzy+. "We want to acknowledge the extreme professionalism and commitment of our employees, and thank the leadership of Indiana for their continued support. The past few years have made clear to us that talented people who are dedicated to the true spirit of collaboration are the key to success for any organization."
